

PRODUCT INFORMATION.

(09/2024), 1.1

PI: PKW_076_24

ORIGINAL BMW SPARE PART. Changeover activation code (FSC). Order process for navigation map products.

NEWS:

- New ordering process

Product description

- The activation code (FSC) allows the use and installation of a map product (e.g. Road Map Joy) via USB stick in the vehicle
- Previously, an activation code was valid for a limited period, usually ex-Factory 3 years
- The FSC could be extended for a further year by making an additional booking in the CD Store or with the retailer
- The validity of all existing FSCs for the card products listed below will be extended indefinitely until the end of 2024 ("Lifetime FSC")

This will result in changes to the ordering process:

- As the validity of the recalculated FSCs does not expire, it is no longer possible to order a new FSC!
- Ordering a new FSC is blocked by the system and leads to an error
- The Lifetime FSC must be transferred or installed once in the vehicle (process as before)
- If the Lifetime FSC is installed in the vehicle, any suitable map update in any version can be installed in the vehicle
- The Lifetime FSC in the vehicle never needs to be updated or replaced again

Additional information

- As before, the Lifetime FSC can be transferred and installed in the vehicle by the dealer via ENCS; this does not change the "Navigation map update" work process
- The customer application "Download Manager" (DLM) still requires a valid booking of the "USB Mapupdate"
- Misuse: If the Lifetime FSC is installed in the vehicle, any suitable card product can be installed in the vehicle. This includes illegally distributed BMW card products from third-party providers!
- The "FSC conversion" process for converting the map product (e.g. Road Map Europe Joy to Road Map North America Joy) remains unchanged

Affected

All existing vehicles with these card products:

The term of the Lifetime FSC is 31.12.2025 for the following products:

- CIC = Car Infotainment Computer ⇒ Premium
- CIC Mid = Car Infotainment Computer Middle ⇒ Motion
- Champ2 = Champ2 ⇒ Move
- NBT = Headunit High ⇒ Next

The term of the Lifetime FSC is 31.12.2099 for the following products:

- NBT Evo = Headunit High 2 ⇒ Evo
- Entry Nav = Headunit Basic Navigation ⇒ Route
- Entry Evo = Headunit Basic Navigation 2 ⇒ Way
- MGU 18 = Headunit High 3 ⇒ Live
- MGU 21 = Headunit High 4 ⇒ Joy

Not affected

- MGU22 (SFA [Secure Feature Activation] replaces FSC)
- IDC (no FSC used, no USB card update)
- New vehicles produced after the changeover. The FSC is still only valid to a limited extent here

All personal designations apply equally to all genders, without any discrimination. Please check the specified part numbers in the ETK (Electronic Parts Catalog) before ordering.
Please refer to your price system or the price publications known to you for the valid prices.
